Creating Student Accounts

You can automatically generate student accounts on Diigo through you “teacher console”

This process creates usernames and passwords for each of the pupils in your class much like in PBWorks

This process is described in this tutorial presentation

Diigo Home > Teacher Console > Create accounts for students and add them to the group

Account Details

Exercise discretion when creating student accounts. For example, Use First Name + Last Name initial, or Nickname + Initial for your students' online identity.

Two options for student profile:

- ☒ Completely disable personal profile info section for these student(s) *(required for students under 13)*
- ☐ Allow students to fill out personal profile info section (optional), and if filled out, *only visible to their friends.*

| Leacy | P | leacyp | 8x78kp | |
| Blogs | J | blogsj | cw1qjh | |

Ok. Create Account(s) Cancel

To ensure pupil safety click on the "completely disable personal profile" box

It is vital that you print off this page for your records and to enable you to tell your students their usernames and passwords

Usernames and passwords are created automatically for your pupils

Once you are happy with the usernames and passwords click "Ok, Create Account(s)"
